

CSF18WL

SCUFF RESISTANT BOPP FILM

DESCRIPTION

BOPP based, matte finish scuff free film for wet lamination applications. CSF18WL film is designed to provide matte appearance with excellent scuff resistance providing superior protection of laminated substrate.

PRODUCT FEATURES

- Excellent Scuff resistance
- Excellent anti-glare characteristics
- Rich matte finish excellent durability

APPLICATIONS

- Suitable for various packaging and decorative applications.

SURFACE PRINTABILITY OPTIONS

- NA

	PROPERTIES	POSITION	CSF18WL	UNIT	METHOD
GENERAL	Grammage	-	16.68	g/m ²	ASTM D 1505
	Yield	-	59.95	m ² /kg	Internal
SURFACE	Wetting tension	Lamination Side	44	dy/cm	ASTM D 2578
		Scuff-coated Side	36		
OPTICAL	Gloss	Scuff-coated Side	10	^45A	ASTM D 2457
	Haze	-	77	%	ASTM D 1003

The above figures and properties refer to average values of laboratory test on samples of our standard production, it is understood that this entails no obligation or responsibility on our part. Customers should verify the suitability of the film for its specific end use. Therefore this document will not represent a (end) product specification.

SPECIAL INSTRUCTIONS

- Printed surface must be well dried before lamination.
- Surface printing is guaranteed only in specific products, all products are not meant for surface printing. Please Contact Technical Services representative prior to printing process.
- Temperature should preferably be less than 30°C & humidity 55±5% in storage areas.
- Material should be consumed within six months of receipt.
- Material should be kept in their original wrapping until the material is loaded on machine.
- Storage atmosphere should be dust free to avoid any contamination while lamination.

SAFETY

Compliance with industrial health and safety standards. Thermal films do not present any significant danger to health and safety in the workplace provided they are used for the intended purpose in accordance with conventional practices and that health & safety regulations are observed.
