

TSTI-PCR40

BOPP FILMS

TRANSPARENT HEAT SEALABLE CORONA TREATED ONE SIDE FOR CONVERSION

DESCRIPTION

TSTI-PCR40 is transparent co-extruded both side heat sealable BOPP film. It is one side corona treated and both side heat sealable. Untreated heat seal surface have good seal strength and sealing range which gives optimum performance on wide range of packaging machines. It contains 40% Post Consumer Recycle (PCR) material.

PRODUCT FEATURES

- It contains 40% POST CONSUMER RECYCLE (PCR) material
- Good sealing properties
- Good performance on HFFS & VFFS machines
- Good printability and suitable for lamination with other substances
- Good optical properties
- Good stiffness and mechanical properties

APPLICATIONS

Can be used as a single web or in laminate structures;

- Confectionery (chocolate/gum/sugar)
- Bakery (biscuits/cookie/crackers)
- Chips/Snacks/Pasta
- Health and beauty care
- Household and detergents

NOMENCLATURE

TSTI-PCR40 - Corona treated surface Inside, Untreated Heat seal surface Outside
TSTO-PCR40 - Corona treated surface Outside, Untreated Heat seal surface Inside

The figures and above properties refer to typical values which are indicative only. Customers should verify the suitability of the film for its specific end use. Therefore this document will not represent a product specification.

GUIDELINES FOR STORAGE

Temperature should preferably be less than 30°C & humidity 55±5% in storage areas and material should be consumed within three months of receipt. OPP films should be allowed to reach operating room temperature 24 hours before use.

FOOD CONTACT

OPP films complies with the requirements of FDA, EC & REACH regulations. Specific documentation is available on request.

SAFETY

Compliance with industrial health and safety standards. OPP films do not present any significant danger to health and safety in the workplace, provided they are used for the intended purpose in accordance with conventional practices and that health & safety regulations are observed. Relevant guidelines can be found in our MSDS (available upon request).

CAUTIONS

- Film characteristics are maintained for six months from the date of invoicing
- Please make sure printing surface is well dried before lamination
