BOPP FILMS

TRANSPARENT NON HEAT SEALABLE UV STABLE HEAT RESISTANT BOPP FILM BOTH SIDE CORONA TREATED FOR CONVERSION

Modified Heat Resistance Surface
OPP Modified Core layer
High Corona Treated Glossy Surface

AVAILABLE
CALIPERS

DESCRIPTION

OPP T18TTIHR-UVS is non heat sealable plain high gloss both side treated BOPP Film with good heat resistant characteristics. Its treated surface is modified which can endure heat and shrinking during pack sealing; its core layer is also modified for better rigidity compared to conventional plain BOPP Films. In addition film is designed for good UV stable performance.

PRODUCT FEATURES

- Endurance to heat and shrinking during sealing
- Easy Jaw release
- Good wetting tension for printing and lamination
- Suitable for food contact applications
- Water/oil/grease repellent
- Outstanding clarity and gloss
- UV stable

APPLICATIONS

Can be used as outside web of laminates

- Bakery (Biscuits/cookie/crackers)
- Confectionery(chocolates/gum/sugar)
- Chips/tea/coffee/pasta
- Soaps and detergents
- Miscellaneous industrial and house hold applications

NOMENCLATURE

T18TTIHR-UVS... High Wetting tension Surface Inside, Modified Heat Resistance Surface Outside

T18TTOHR-UVS... High Wetting tension Surface Outside, Modified Heat Resistance Surface Inside

* 36 dyne/cm guaranteed for 3 months from the invoice date in controlled ambient condition as per below storage guidelines.

The figures and above properties refer to typical values which are indicative only. Customers should verify the suitability of the film for its specific end use. Therefore this document will not represent a product specification.

GUIDELINES FOR STORAGE

Temperature should preferably be less than 30°C & humidity 55±5% in storage areas and material should be consumed within three months of receipt. OPP films should be allowed to reach operating room temperature 24 hours before use.

FOOD CONTACT

OPP films complies with the requirements of FDA, EC & REACH regulations. Specific documentation is available on request.

SAFETY

Compliance with industrial health and safety standards. OPP films do not present any significant danger to health and safety in the workplace, provided they are used for the intended purpose in accordance with conventional practices and that health & safety regulations are observed. Relevant guidelines can be found in our MSDS (available upon request).

CAUTIONS

- Film characteristics are maintained for six months from the date of invoicing except for wetting tension
