BOPP FILMS

TRANSPARENT PLAIN BOPP, INSIDE SURFACE FOR DIRECT SOFT EMBOSSING /
HOLOGRAPH

**DESCRIPTION**

OPP TIH is transparent **Plain BOPP** base film for holographic embossing applications. Its inside untreated skin is specifically modified for direct holographic embossing without primer coating & suitable for metallisation & for Good metal adhesion It is recommended to Pretreat or Plasma embossed surface before or during metallisation. TIH gives brilliant prismatic effect for holographic applications.

PRODUCT FEATURES

- Excellent Adhesion of Holographic Coating on Embossable side & suitable for metallisation
- Excellent Holographic effect after Embossing
- Outstanding optical properties (high gloss, exceptional clarity and low haze)
- Excellent Mechanical Properties

APPLICATIONS

Base film for holographic applications for

- Brand protection
- Attractive packaging
- Security (almost impossible to counterfeit)

The figures and above properties refer to typical values which are indicative only. Customers should verify the suitability of the film for its specific end use. Therefore this document will not represent a product specification.

GUIDELINES FOR STORAGE

Temperature should preferably be less than 30°C & humidity 55±5% in storage areas and material should be consumed within three months of receipt. OPP films should be allowed to reach operating room temperature 24 hours before use.

FOOD CONTACT

OPP films complies with the requirements of FDA, EC & REACH regulations. Specific documentation is available on request.

SAFETY

Compliance with industrial health and safety standards. OPP films do not present any significant danger to health and safety in the workplace, provided they are used for the intended purpose in accordance with conventional practices and that health & safety regulations are observed. Relevant guidelines can be found in our MSDS (available upon request).

CAUTIONS

- Film characteristics are maintained for six months from the date of invoicing
