18H1C-PCR85

HIGH MATT FOR COLD SEAL CONVERSION

Matt release surface- Untreated
Tie Layer
Modified PP core (PCR Content)
Tie Layer
Corona treated Glossy surface

AVAILABLE
CALIPERS

DESCRIPTION

18H1C-PCR85 is transparent one side matt finish **BOPP** film for cold seal applications. It is one side corona treated glossy surface & other side is untreated matte surface which provides matte aesthetics as well as release characteristics. The paper like matte appearance provides satiny appearance and a differentiated shelf appeal. It contains 85% Post Consumer Recycle (PCR) material.

PRODUCT FEATURES

- It contains 85% POST CONSUMER RECYCLE (PCR) material
- Cold seal release characteristics on matte surface
- Matte appearance and differentiated shelf appeal
- Dust, water & oil resistant on matte surface
- Good printability and suitable for lamination with other substrates
- Good performance on HFFS & VFFS machines
- Non-toxic suitable for food contact applications

APPLICATIONS

- Chips/ Snacks/ Pasta
- Confectionary (Chocolate/ Gum/ Sugar)
- Bakery (Biscuits/ Cookie/ Crackers)
- Health & Beauty care

* 38 dyne/cm guaranteed for 6 months from the invoice date in controlled ambient condition as mentioned in storage guidelines.

The figures and above properties refer to typical values which are indicative only. Customers should verify the suitability of the film for its specific end use. Therefore this document will not represent a product specification.

GUIDELINES FOR STORAGE

Temperature should preferably be less than 30°C & humidity 55±5% in storage areas and material should be consumed within three months of receipt. OPP films should be allowed to reach operating room temperature 24 hours before use

FOOD CONTACT

OPP films complies with the requirements of FDA, EC & REACH regulations. Specific documentation is available on request.

SAFETY

Compliance with industrial health and safety standards. OPP films do not present any significant danger to health and safety in the workplace, provided they are used for the intended purpose in accordance with conventional practices and that health & safety regulations are observed. Relevant guidelines can be found in our MSDS (available upon request).

CAUTIONS

- Film characteristics are maintained for six months from the date of invoicing
