TS50PRN-IPCR50

TRANSPARENT HEAT SEALABLE 50 MICRON BOPP FILM PRINTABLE GRADE FOR OVERWRAP APPLICATIONS - INSIDE PRINTABLE

DESCRIPTION

TS50PRN-IPCR50 is transparent co-extruded both side heat sealable **BOPP** film. It is one side corona treated and both side heat sealable. It is specially designed for printed overwrapping applications where Machinability is a key factor. It contains 50% Post Consumer Recycle (PCR) material.

PRODUCT FEATURES

- It contains 50% POST CONSUMER RECYCLE (PCR) material
- Good Sealing Properties
- Good Anti-static & slip property
- Good Optical properties
- Good Stiffness and Mechanical Properties
- Good performance on HFFS & VFFS machines

APPLICATIONS

For Bundle Overwrap and other printable Overwrap (Non Shrink);

- Confectionary (chocolate/gum/sugar)
- Bakery (Biscuits/cookie/crackers)
- Health care & Beauty care
- Household and detergents

NOMENCLATURE

TS50PRN-IPCR50... Wetting tension surface Inside, Heat sealable untreated surface Outside TS50PRN-OPCR50... Wetting tension surface Outside, Heat sealable untreated surface Inside

The figures and above properties refer to typical values which are indicative only. Customers should verify the suitability of the film for its specific end use. Therefore this document will not represent a product specification.

GUIDELINES FOR STORAGE

Temperature should preferably be less than 30°C & humidity 55±5% in storage areas and material should be consumed within three months of receipt. OPP films should be allowed to reach operating room temperature 24 hours before use

FOOD CONTACT

OPP films complies with the requirements of FDA, EC & REACH regulations. Specific documentation is available on request.

SAFETY

ECHNICAL DATA SHEET

Compliance with industrial health and safety standards. OPP films do not present any significant danger to health and safety in the workplace, provided they are used for the intended purpose in accordance with conventional practices and that health & safety regulations are observed. Relevant guidelines can be found in our MSDS (available upon request).

CAUTIONS

Film characteristics are maintained for six months from the date of invoicing
