T18TIUL **BOPP FILMS**

TRANSPARENT NON SEALABLE CORONA TREATED ONE SIDE BOPP FILM FOR **CONVERSION (SHAMPOO GRADE)**

DESCRIPTION

OPP TIUL is transparent high gloss non-heat sealable one side corona treated **BOPP** film. This film is specially designed for printing and lamination process. Both Skin layers are formulated to provide excellent antiblocking, Corona treated layer is carefully formulated to provide good ink anchoring without any powder deposition/accumilation.

PRODUCT FEATURES

- Outstanding clarity and gloss
- Can be laminated with other substrates
- Printable/gluable
- Robust Machinability
- Low static and good COF
- Excellent wetting tension
- Suitable for food contact applications

To be used as reverse printed top layer of shampoo laminates

Can also be used as outside web of laminates for

- Bakery (Biscuits/cookie/crackers)
- Confectionery(chocolates/gum/sugar)
- Chips/tea/coffee/pasta
- Miscellaneous industrial and house hold applications

NOMENCLATURE

T18TIUL - Transparent 18 micron BOPP corona treated Inside

T18TOUL - Transparent 18 micron BOPP corona treated Outside

^{* 38} dyne/cm guaranteed for 4 months from the invoice date in controlled ambient condition as per below storage guidelines.

The figures and above properties refer to typical values which are indicative only. Customers should verify the suitability of the film for its specific end use. Therefore this document will not represent a product specification.

GUIDELINES FOR STORAGE

Temperature should preferably be less than 30° C & humidity $55\pm5\%$ in storage areas and material should be consumed within three months of receipt. OPP films should be allowed to reach operating room temperature 24 hours before use.

FOOD CONTACT

OPP films complies with the requirements of FDA, EC & REACH regulations. Specific documentation is available on request.

SAFETY

Compliance with industrial health and safety standards. OPP films do not present any significant danger to health and safety in the workplace, provided they are used for the intended purpose in accordance with conventional practices and that health & safety regulations are observed. Relevant guidelines can be found in our MSDS (available upon request).

CAUTIONS

• Film characteristics are maintained for six months from the date of invoicing
